

# THIRD QUARTER PROGRAM REPORT

OCTOBER 2022

## ADVANCEMENT

During this quarter, we had a high volume of summer internships in progress. We placed 24 students between April and September, giving us a total of 26 interns for the first, second and third quarters. We are pleased to share that, despite staffing shortages, we are on track to meet our annual goals. Also, we collaborated with the MSU Career Services Network for the Power-Up Career Prep program, led by Jeff Beavers. NMSI's employer partners who participated in the program include Toast, Kellogg's Co and Blue Cross Blue Shield of Michigan.

NMSI's continued growth and success has increased the demand for additional staff and resources to support our students across the country. We are confident that continued work on advocacy efforts will lead to fruitful partnerships and alliances necessary to continue to serve our students.

NMSI is financially supported by the generous contribution of

**26**  
*Internship placements  
 as of October 2022*

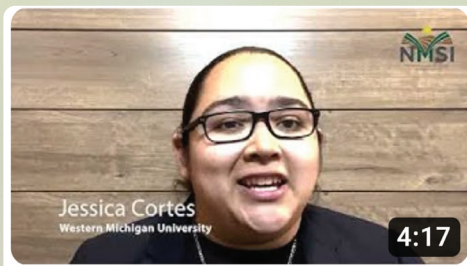

**24**  
*New internships  
 between the 2nd and  
 3rd Quarter*

**18**  
*Employers providing  
 internships to NMSI  
 Interns*

**11**
